STEELPRO
SAFETY

1988OZIINE

STEELPRO® ZEN series dielectric earmuff for hearing protection with very high attenuation.

High-comfort ergonomic earmuff with adjustable dielectric harness to adapt to the size of the user's head. Suitable for environments with very high noise levels.

Features:

- Very high degree of protection
- Great comfort and lightweight design
- Lightweight plastic caps
- Dielectric harness POM plastic adjustable in height
- High comfort foam pads
- Color black/red
- SNR 34 dB
- Only 310 g.

Uses and employment: in very noisy environments (construction, machine rooms, heavy industry, mining, airports...).

Sizes: U

Cat. III
